ABOUT

Tratorag Duraface

1998 - The Gadotti brothers founded **TRATORAG**, a Brazilian company headquartered in Piracicaba-SP.

The company started as a John Deere dealership and, after years of dedication and growth, expanded its stores to several other cities, including Itapetininga, Itapeva, Piedade, Bragança Paulista, Indaiatuba and Registro.

2007 - **TRATORAG** inaugurated Fatima do Sul Agroenergética, which focused on the production of alcohol, in the city of Fátima do Sul-MS.

2019 - the company decided to sell the John Deere dealership in Piracicaba and its subsidiaries. As a result of its vast knowledge, **TRATORAG** started selling parts to the entire sugar and alcohol industry.

2020 - **TRATORAG** started a partnership with **DURAFACE**, a company based in Araras-SP that was already a leader in the Brazilian market of blades for sugarcane harvesters.

2023 - **TRATORAG** acquired the exclusive rights to sell **DURAFACE** products and use its brand, further expanding its presence in the aftermarket and wear parts market.

The company also initiated the merger of the **TRATORAG** and **DURAFACE** factories into a single building.

The investment includes new state-of-the-art laser cutting machines, punching presses and folders.
